

Step 1: Create the desired shape for the text with the Shape Tool. Use the Direct Selection Tool (White Arrow) to adjust the shape. Make sure the shape has no fill and has a black outline.

Step 2: Type a word with a desired font using the Type Tool.
Use a font size according to the size of your shape.

AWESOME

Bebas Neue - Size 150

Step 3: Right click the text and select Arrange > Send to Back.
Place the text behind the shape.

Step 4: Select the text and the shape (hold shift and click on both), then go to Object > Envelope Distort > Make with Top Object. You are finished! This looks AWESOME!
