

:: paste into

Photoshop Tutorial

1. Select the area that you want to paste imagery into using one (or more) of the selection tools: quick selection, magic wand, magnetic lasso, polygonal lasso
2. Open the image (into Photoshop) that you want to copy
3. Choose Select > All (or command + 'a' on your keyboard)
4. Choose Edit > Copy (or command + 'c' on your keyboard)
5. Return to your original image
6. Choose Edit > Paste Into (or shift + command + 'v' on your keyboard)
7. Violá!
